UNITED STATES FOOD ADMINISTRATION IN OHIO.

SAVE WHEAT BY THE CALENDAR

In order to help Uncle Sam save 21,000,000 bushels of wheat between now and May 1 for shipment to the allies, every individual must help. It will be necessary to save wheat not

only on Mondays and Wednesdays but every day. The above wheat saving calendar is issued by the Federal Food Administrator for Ohio to remind us of our obligation to our

brave soldiers and our allies. On and after April 14 all Victory bread must contain 25 per cent of wheat substitutes. Hotel men have agreed to abstain from their menus.

Join Pig Raising Army.

A large number of the boys of Darke county are going to help win the war and answer Uncle Sam's call for increased pork production by joining the pig raising army. This is in charge of Uncle Sam himself in co-operation with the Ohio State University and the county school system.

Judging from the state-wide results last year, the boys are going to be money-makers, whether they win any prizes or not—and a number of prizes are offered. Last year 339 of the boys raised about \$45,000 worth of pork. Arthur Hansel of Celina made \$18.81 above the original cost and the feed of his pig. The pig gained an average of 2.03 pounds a day for 85 days at a cost of 7.3 cents a pound. Many of the other boys' pigs did nearly as well.

As a special inducement to enroll in the army of pig raisers, the Darke County Agricultural Society is offering trips to Columbus to be given during Farmers' Week at the Ohio State University. A special educational and sightseeing program is arranged annually for the hundreds of winners.

Each boy who enters will be sent a series of bulletins on pig raising that has been prepared for this work by specialists. A representative sent by Uncle Sam and the co-operators will also visit each boy during the summer.

Any boy in the county between the ages of 10 and 18 may join. Applications for entry may be made to C. A. Wilt, county superintendent of schools, or W. H. Palmer, Ohio State University, Columbus.

Rights in the Home Threatened

A man's home was always regarded as his castle. That was before the Anti-Saloon League began to establish itself as the Anti-Rights League and with prohibition invade the sanctity of the home and deprive a man of his rights.

Under the Anti-Saloon League prohibition law in Oregon the courts have held that a man can not legally press the juice from his own grapes and allow the juice to ferment into wine to be served to his own family at his own table in his own home.

Is it any wonder the voters of Ohio view with alarm the attack being made upon their right to vote by the Anti-Saloon League in its opposition to the referendum amendment?

If you believe in popular government, vote for the referendum amendment.

APPLICATION FOR BOY TO WORK ON FARM.

Director, U. S. Boys' Working Reserve,
State House, Columbus, Ohio.

I can furnish work to _____ boys for the summer, and will give further information when it is called for, about my farm and the work I will expect to have done.

Name _____

P. O. Address _____

County _____

(Please fill out and mail to C. H. Mavhugh, Federal State Director, U. S. Boys' Working Reserve, State House, Columbus, O.)

The shortage of farm labor threatens to reduce the agricultural production of Ohio and the nation at a time when increased production is vitally necessary to the national welfare.

Every effort is being made to get men having farm experience but now employed in other occupations from which they can be spared BACK TO THE FARMS.

There is a great reserve army of young men now being recruited by the U. S. Boys' Working Reserve. These young men, 16 to 21 years of age, constitute a tremendous force.

Many of these boys already have some farm experience. They should be given the opportunity for training in agricultural service that they may be available to the nation during the next few years.

To give these boys work on the farms now will compensate in a way for the loss of man-power due to enlistment in the national service and the drain into the war industries in cities.

Ohio farmers who can use these older boys in farm work should fill out the above application blank and mail to the office of the federal state director of the U. S. Boys' Working Reserve, State House, Columbus, Ohio. Upon receipt of this application instructions will be sent to them showing the method of placing the boys on farms.

INDUSTRIAL DESERTERS.

The time has come when the man who leaves his post in American industrial life for technical enforcement of his prerogatives must be branded as a traitorous industrial deserter. We, the people of the United States, through our government, are employing millions of men in the most exacting service that involves risk of life itself for many and unimaginable hardships for all, and their maximum pay is \$35 a month and board. National self sacrifice and co-operation should be our watchword. Every man who does not help hinder the victory of democracy. —Industrial Conservation, New York.
